5. HIGHWAYS REPORT – BEDS COUNTY COUNCIL

Notification has been received from the County Council informing members that the way they deliver Highways Services has improved all across the county's roads and footpaths. The aim of the work is to improve the service to all their customers as well as Town and Parish Councils. Targets and standards have now been implemented which will be published to all their customers. Predominantly they will also be letting customers know three things : 1). What the priority of the repair that they have reported is, 2). How quickly they have inspected the problem and 3). How quickly it will be sorted out. A sample of the proposed report was included with the notification along with a questionnaire which will be completed and returned accordingly.
